MSDF 2019: ADDENDUM 3

PUBLIC PARTICIPATION AND PROCESS REPORT

GEORGE MSDF AMENDMENT 2017 - 2019
1 SUMMARY OF THE PUBLIC PARTICIPATION PROCESS FOLLOWED IN THE PREPARATION OF THE GEORGE MUNICIPAL SPATIAL DEVELOPMENT FRAMEWORK REVIEW/ AMENDMENT 2017 – 2019

The process to prepare the George Municipal Spatial Development Framework 2019 followed a comprehensive four step public participation process which exceeded legislated requirements.

Throughout the process, inter-sectoral/departmental input from within the Municipality was made via a formally established Project Committee which included, by invitation, representatives of the regional and head office of the Western Cape Government’s Department of Environmental Affairs and Development Planning. The Project Committee met 4 times and was invited to comment on the draft product 5 times.

At key milestones the draft products of the MSDF Preparation Process were also workshopped with the George Municipality’s Council.

Step 1: Commencement

Notification of the Municipality’s intent to commence with the preparation of the Municipal Spatial Development Framework concurrently with the development of the 2017-2022 Integrated Development Plan for the George Municipality in the local media including an invitation to make written submissions. An inter-governmental Issues and Vision Workshop was held with technical departments during which the main service delivery priorities were identified and all relevant information was reviewed that indicates shifting trends. A status quo report was drafted and adopted by Council on 24 August 2017.

Step 2: Initial public input on key spatial planning issues

Following the completion of the ‘Policy Context, Vision Directives and Status Quo Baseline – Gaps and Issues Identification’ phase, at the beginning of the following phase to prepare the draft Municipal Spatial Development Framework, the Municipality held three focus group sessions:

1. A housing sector focus group to unpack and understand human settlement planning in the Municipality (this was attended by local and provincial officials and their consultants involved in human settlements delivery).
2. A heritage sector focus group to tap into local knowledge on the heritage assets and resources in the George municipal area (this was attended by local heritage practitioners and organisations, as well as municipal officials).
3. A day long workshop to which a range of civil society groups, investors, consultants and interest groups were invited to discuss key issues that needed input to guide the development of the MSDF
Step 3: Inter-governmental Consultation

Prior to the formal advertisement of the draft MSDF for comment, the draft report was circulated to key public-sector stakeholders with a strategic interest in the MSDF, inviting their input prior to finalising the MSDF for presentation to Council for authority to proceed with the statutory public participation process.

A special inter-governmental workshop was also held to unpack issues related to rural development and how these should be dealt with in the MSDF.

Step 4: Statutory Public Participation Process

The draft MSDF was formally advertised for public comment and input, in terms of the legislated prescripts, via:

- The local media;
- The municipal website and social media platforms;
- Notices posted on municipal notice boards and in all public libraries;
- A publication in the Provincial Gazette;
- A letter to interested and affected parties;
- A letter to public sector stakeholders;
- Official IDP roadshows;
- 3 open days held in the Banquet Hall, George Civic Centre, the Thembalethu Thusong Centre and the Uniondale Community Hall, at which comments could be made via a form made available. Posters were also put up at the open days and a timeslot was set for a presentation to be made.

A period of 60 days was provided for written public comment/ input to be made. Comments received after the deadline were also accepted and considered.

An overview of the process followed including more detail on and evidence of the above is tabled below and is accompanied by a digital portfolio of evidence.
