## 1. INTRODUCTION

George Municipality acknowledges the fact that priority must be given to the basic needs of the Community and that the social and economic development of the Community is assisted to provide access to the basic level of service in terms of the Constitution of South Africa, Section 151(1)(b) and 153 (b), and 156.

The George Municipality receives an Equitable Share contribution from National Treasury annually. The National Department of Provincial and Local Government issued guidelines for Indigent Support.

The George Municipality wishes to give basic services for all its communities therefore, the George Municipality must have an Indigent Policy.

## 2. PREAMBLE

**Whereas** the Municipality receives an equitable share contribution from National Treasury annually;

**And whereas** the National Department of Provincial and Local Government has issued guidelines regarding indigent support;

**And whereas** the Municipality wishes to give access to basic services for all of its communities;

**Now therefore** the Municipal Council of **George Municipality** adopts an Indigent Policy as set out in this document.

## 3. LEGAL FRAMEWORK AND PRINCIPLES

The legal framework within to provide basic services, are in terms of the Constitution of South Africa:

- Section 151(1) (b) – provision of services in sustainable manner,
- Section 153 (b) – participation in national and provincial programs, and
- Section 156 – powers and functions to be performed by the municipalities.

Section 74(2)(c) of the Systems Act, Act 32 of 2000 deals with the ability of the municipality to make provision for the provision of access to at least basic services for the poor households. Section 118 of the same Act provides the powers to the Municipality to issue clearance certificates and to hold back certificates of owners who are in arrears.

It is also seen that Section 151(1) (b) of the Constitution, read with Section 74(2)(c) of the Systems Act provides enough powers to the Municipality to subsidize the poor

regarding other tariffs as well as to ensure that the household can maintain access to basic services when the head of the household should pass away.

- b) Provide procedures and guidelines for the subsidisation of basic service charges to indigent households, using the equitable share allocation, received from National Government and other budgetary provisions; and
- c) Ensure affordability by subsidising tariffs calculated in terms of the municipality's Tariff Policy and by setting appropriate service levels in accordance with the municipality's service delivery plan.
- d) Ensure that the Municipality recognises that many residents cannot afford the cost of full provision of services and for this reason the Municipality will endeavour to ensure affordability through:
- e) Setting tariffs in terms of the Municipality's Tariff Policy, which will balance the economic viability of continued service delivery; and
- f) Determining appropriate service levels.

## 9. REGISTRATION AND INSTITUTIONAL ARRANGEMENTS

### 9.1 Institutional arrangement

- a) The municipality has designated staff in all the municipal Client Service Area Offices, who are familiar with the municipal by-laws and the government legislative framework that are in line with the South African Constitution Act 108 of 1996,

- a) An **applicant** applying for indigent support must complete an electronic indigent application form as prescribed by the municipality.
- b) Applicants can apply for indigent support at all Municipal Client Service Area Offices and the Main Municipal Office.

## 10. TARGETED APPROACH

Cognisance must be taken of the following when Indigent applications are processed:

- a. Indigent approval is based on the person meeting the criteria required for indigent application.
- b. All applicants must complete an electronic indigent application, which is to be submitted together with the required supporting documents. The application information will be scrutinized and confirmed by the Municipality prior to being approved.
- c. Should the applicant be found to be providing false or fraudulent information in the application, the following will happen:
  - ca) The indigent benefit will be cancelled, and
  - cb) All previous discounts for the current financial year will be reversed, and
  - cc) The household may not apply to be registered as an indigent household for the next financial year.
- d. Consumers may be requested to re-apply for the indigent subsidy. The indigent status of a consumer may be reviewed continuously as part of the municipality's ongoing administrative processes for indigents. This could be done by either physical audit or external verification checks (accredited service provider/s). The revised definitions of this policy will be implemented by a phased in approach over the 2025/26 financial year, commencing from the date of policy approval.
- e. All indigents may be systematically requested to re-apply for indigent status.
- f. The writing-off of indigent debts will be reversed for the two (2) financial periods in cases where the property concerned, is sold within 1 (one) year after the write-off has been done.
- g. Should a property, through inheritance, auction, or donation, change ownership, the new occupier and or owner must provide support documentation and evidence to apply for indigent support within 6 months after the change of ownership. The new occupier and or owner must complete an electronic indigent application if he or she believes they meet the Indigent criteria.
- h. The applicant must be the full-time occupant and may not own any other property within the Republic of South Africa, except in cases whereby the second dwelling and/or property has been acquired through inheritance or donation. Supporting documentation must be provided to these cases and a motivation can be presented. However, the client may only qualify for indigent support on ONE of his/her properties.
- i. Should a property be occupied by a person who qualifies for indigence relief, in circumstances where the owner cannot be traced, contacted or where property

was erroneously registered in an owner's name according to the Municipality, the client may qualify for indigent support and the arrear debt may be written off.

- j. Where the criteria for qualification set above for indigent relief is not met, but special circumstances exist, such applications will be submitted to the relevant Section 80 committee, who will have the discretion, to consider the application and make a recommendation to the Executive Mayor, and
  - In these matters, as an interim measure, services will not be disconnected/blocked until the delegated authority has decided regarding the indigency application, and
  - However, the collection of outstanding debt will still be implemented.

## 11. ADDITIONAL INFORMATION

All registered owners qualifying as Indigent households will receive Indigent support provided that a prepaid electricity meter is installed. The Municipality will endeavour to, within its financial capacity, supply smart water meters to indigent households.

## 12. CRITERIA FOR QUALIFICATION

To qualify for Indigent support all applicants must meet the following criteria:

- a. The household income may not exceed the level as determined in-Municipality's tariff list during the budget process.
- b. An electronic indigent application must be completed and submitted.
- c. The applicant must be the full-time occupant and may not own any other property within the Republic of South Africa.
- d. The applicant's property must only be used for residential purposes.
- e. Where more than one household resides on the property, the following additional criteria will apply (Backyard-dwellers also qualify for free basic water & free electricity units, as determined by the Municipality, if they are deemed to be indigent):
  - i. When water and electricity consumptions are metered separately, consumption may not exceed an average of **15** kilolitres of water per month and/or **400** kWh/month (Kilowatt-hour) units of electricity, inclusive of the free basic service grants, within a 6-month period;
  - ii. When water and electricity consumptions are metered through one-meter, additional usage of 6kl/month water and 70 kWh/month (Kilowatt-hour) units' electricity will be allowed per additional household (Main house plus a maximum of two (2) backyard dwellers).

- iii. The following limitation of usages for Indigent Households may be applied where the municipality believes that misuse or arrear debt occurs:
- Monthly consumption of electricity by the household may be limited to 400kWh/month; and / or
  - Monthly consumption of water by the household may be limited to 15kl.
  - The indigent status, indigent subsidy and benefits may be cancelled should actual consumption exceed the allowed average of 15 kilolitres of water per month and/or 400 kWh/month (Kilowatt-hour) units of electricity, as measured periodically based on monthly average consumptions.
- f. Should actual consumption exceed the allowed average of 15 kilolitres of water per month and/or 400 kWh/month (Kilowatt-hour) units of electricity:
- A water flow restrictor may be installed,
  - The arrear debt will be loaded on the prepaid meter,
  - The debt can be recovered in the form of auxiliary charges at the following rates of the value of electricity purchases:
    - 55% for all households in arrears between 30 days and 60 days;
    - 65% for all households in arrears between 60 days and 90 days;
    - 75% for all households in arrears over 90 days (to be phased in over future financial years).
- This will be implemented until the arrear debt is settled in full.
- g. If the monthly consumption of the Indigent Household exceeds 400 kWh/month (Kilowatt-hour) per month, the applicable electricity tariff as approved by NERSA for indigents using over 400 kWh/month will be changed.
- h. Indigent households can choose to remain on 20 Amp and will then receive a lower consumption charge and no basic cost or capacity charges per Amp. Consumption will be levied at the applicable electricity tariff as approved by NERSA for indigents. Indigents choosing a higher capacity than 20 Amp will be charged as follows:

Description	Basic	Capacity	Energy
<b>20 Amp selection</b>	No	No	Yes  (lower consumption charge below 400 kWh/month)
<b>30 Amp and greater than 30 Amp selection</b>	No	Yes	Yes  (higher consumption charge)

- i. If any indigent consumer applies for higher Amps than the 20 Amp selection level, they will be liable to pay the capacity fixed charge per Amp as above and will not be removed from the indigent register. Capacity charges may be recovered through the pre-paid vending system monthly.
- j. In cases where the owner of a property does not qualify for Indigent support, the applicable backyard-dwellers will be excluded from receiving this subsidy.
- k. Consumers in informal settlements with a pre-paid meter will qualify automatically without application for the Indigent subsidy.
- l. The default capacity of the pre-paid electricity meter for all Indigent consumers will be set at 20 Amps for one (1) indigent household, 30 Amps with one additional dweller, 40 Amps with two additional dwellers – in order to protect the indigent consumer/s from the negative impact of increased cost of electricity supply.
- m. Indigent households will therefore have a range of options available to them for managing their pre-paid electricity cost, with 20 Amp being the most affordable option. Indigents that choose a higher level of supply will not lose their indigent status.

### **13. EXTENT OF INDIGENT SUPPORT**

- i. The extent of indigent support will be determined during the compilation of the annual budget. The subsidy for indigent consumers is contained in the tariff list.
- ii. The source of funding of the indigence subsidy is that portion of the Equitable Share contribution received from National Treasury and any additional provisions made by the Municipality and provided for in the annual budget.
- iii. The municipality reserves the right to not approve Level 2 Indigent support subject to available Equitable Share funding.
- iv. The municipality reserves the right to suspend/ amend or review levels of indigent support.
- v. The municipality may suspend/amend or review indigent support, upon evaluation of indicators such as social assessments and consumption levels.
- vi. The subsidy will only be credited to the qualifying customer's accounts until the amount provided on the budget has been exhausted.
- vii. If a customer's consumption or use of a municipal service is more than the subsidised service, the customer will be obliged to pay for such excess consumption.

- viii. Subsidized services may not be accumulated if or when not utilized in full. No rebates will be applicable.
- ix. The account of the approved indigent applicant principal household will be exempted from interest.
