SECTION 5: PRICING DATA

Pricing instructions refer to the criteria as set out below, read together with all parts of this contract document, which it will be assumed in the contract that the tenderer has taken into account when developing their prices.

5.1 Pricing instructions as set out.

The short descriptions and category number given in the pricing schedule below are brief descriptions used to identify the activities for which prices are required.

5.2 Guideline tariffs may be used.

While it is entirely at the tenderer's discretion as regards to the pricing schedule below, guideline tariffs of fees or indicative time-based fee rates are gazetted annually, which are useful documents that will give tenderers some idea of industry norms against which they may compare their rates, sums, percentage fees and/or prices as applicable.

5.3 Definitions of Unit and Quantity.

For the pricing schedule, the following words shall have the meanings hereby assigned to them:

Unit: The unit of measurement for each item.

Quantity: The number of units of work for each item.

Rate: The agreed payment per unit of measurement.

Amount: The product quantity and the agreed rate for an item.

5.4 Rates must be entered per item.

A rate is to be entered against each item in the pricing schedule. An item against which no price is entered will be considered as a no offer and will not be evaluated.

5.5 Prices are inclusive of all costs.

The rates in the pricing schedule are to be fully inclusive of prices described below the several items. Such prices and rates are to cover all costs and expenses that may be required in and for the execution of the work described, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the contract data, as well as overhead charges and profit.

5.6 Quantities are provisional.

Where quantities are given in the pricing schedule, these are provisional and do not necessarily represent the actual amount of work to be done. The quantities of work accepted and certified for payment will be used for determining payments due and not the quantities given in the pricing schedule. In respect of time-based services, the allocation of staff must be agreed with the employer before such services are rendered.

5.7 Prices are final and binding.

All rates tendered in the pricing schedule shall be final and binding throughout the period of the contract.

5.8 Prices inclusive of VAT.

Prices should be inclusive of VAT and all other costs to execute the service.

5.9 Only firm pricing is accepted.

Only firm pricing will be accepted, non-firm prices (including prices subject to rates of exchange variations) will not be considered. **The rates for years two (2) and three (3) should include annual escalations.**

5.10 Bidders must submit a price for each line and column in all four (4) parts of the pricing schedule.

Bidders will be evaluated on the total amount of the contract, in other words the price per container multiplied by the estimate quantities for the contract period. **Bidders must submit a price for each line item and column in the pricing schedule to be considered for evaluation. Should the bidder fail to submit a price for each line item and column as stated, the bid will be seen as non-responsive.**

Tenderers must complete all columns and should tender for all four (4) parts of the pricing schedule.

5.11 Failure to comply may result in non-responsive bid.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38(1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
